THE REW-YORK TRIBUNE-1857-8.-THE TRIBUNE was first issued as a Daily on the 10th of April, 1841. Its Weekly clution was commenced in September of the same year; its Semi-Weekly in May, 1845, It was the first daily in America to issue a double or eight-page sheet at a low price, and it has kept at least even with the for most of its rivals in the rapid expansion of Newspaper ente prise, which the great extension of Railroads, and the establishteen eventful years. No larger journal is afforded at so low a price in any quarter of the world; none in America, no matter at what price issued, pays an equal amount, weekly or monthly for intellectual labor. It employs correspondents regularly in the leading capitals of Europe, and at the most important points on this continent, with a liberal staff of writers and nation as the first object of a Newspaper, and the timely and thorough elucidation thereof as the chief end of its Editorials. In that spirit, THE TRIBUNE has been and will be conducted, extending and perfecting its correspondence of fast as the increase of its patronage will justify the expense Should the current attempt to connect the Old with the New World by the magnetic wire prove successful, we shall very soon, at a heavy cost to ourselves, and, we trust, a corresponding advantage to our readers, publish each morning a synopsi of the preceding day's occurrences throughout Europe, North kets, the monetary aspects and harvest prospects of hither Eu-rope. With a good atlas beside him and his daily paper on his fireside table, the American farmer or artisan within a day's ride of the city may then study each evening the doings of the civilized world throughout the day preceding; and it seem hardly possible that any who can read, but especially one who has children to educate, will longer deny himself the pleasure and profit of a daily journal. The same is true measurably of those who live further intand; though, where mails are infrequent, a Semi-Weekly, or even a Weekly paper, may seem sufficient.

THE TRIBUNE deals with questions of Political Econe

Public Policy, Ethics, Material Progress, and whatever may affect the Intellectual, Moral, Social and Physical well-being or mankind, dogmatic Theology alone excepted. Its leading idea is the honoring of honest, useful Work in whatever sphere or capacity, and the consequent elevation of the Laboring Class in knowledge, virtue and general esteem. It is necessarily hos tile to Slavery under all its aspects, to Intemperance in what ever form or degree with its accessories, to War save in the de-fense of Country and Liberty against actual invarion, and to every form of Gambling. Desiring to see Production extended and encouraged, while wild Speculation and useless Traffic are curtailed, it favors the policy of sustaining and diversify ng Home Industry by a discriminating Tariff—a policy which tends to increase the price of Grain to the farme while diminishing that of Bread to the artisan, by reduc ing the distance across which their respective products are exchanged and, of course, reducing the cost of their trans-fer. Regarding Fillibusterism in all its phases, and every form and device of National covetonsness, with unqualified abhor rente as the bane of Republics and in their triumph the grav of Equal Human Rights, we seek by every means to wo and win the attention of our countrymen from projects of aggrandizement abroad to enterprises of development and beneficence at home, foremost among which we rank a Railroad through the heart of our territory to connect the waters of the Atlantic with those of the Pacific. Believin no one ready to work should ever famish in unwilling idleness it lends an open ear to every suggestion of Social improvement which does not countervail the dictates of eternal Morality no war upon that natural right of every one to whatsoever he ha fairly produced or honestly acquired, whose denial must sink man kind into the chaos and night of barbarism and universal squalor With a profound consciousness that idlers, drunkards, libertime and profligates can never be other (in the main) than needy and wretched, it bears aloft the great truth that Prevention is bette than Ponishment—that the child trained up in the way be should go, will rarely in after years desert that way for the thorny paths of Vice and Crime—that a true Education—Religous, Moral and Industrial as well as Intellectual—is the mos effective temporal antidote to the errors and woes of our race. Recognizing in the most degraded specimen of Humanity a di-vine spark which should be reverently cherished, not ruthlessly trodden out, we have charity for all forms of evil but those which seek personal advantage through the debasement of our fellow-beings. The champion of no class or caste, the devotee of no sect, we would fain be the interpreter to each other of men's better impulses and septrations, the harbinger of general concord between Labor and Capital, and among those whom circumstances or misspyrchensions have throw-into unnatural antagonism. A cotemporary once observethat he never knew a hard, grasping, niggardly employer whi did not hate THE TRIBUNE, nor a generous, large-souled kindly one, willing to live and let live, who did not like it. We ask no higher praise, no warmer attestation.

The circulation of THE TRIBUNE is at this time as follows:

lows: Daily 32,000 copies; Weekly, 176,800 copies Semi-Weekly, 16,000 copies; California and European 6,000 copies; Total, 230,800 copies. That of the Semi Weekly and Weekly we believe to be exceeded by no other newspaper published in the world; that of the Daily falls be hind that of some of our cotemporaries. Had our hostility to Human Stavery and the Liquor Traffic been more guarded heavier and our Advertising far more lucrative; but of our patronage generally we have no reason, no wish, to complain.

Of late, a concerted effort has been made to diminish on ural circulation through the influence of the Postmasters, some of whom embark in it eagerly, others under political constraint while a large number, we are happy, for the sake of Human Nature, to state, refuse to be dragooned into it at all. Still, we have been made to feel the heavy hand of Power, and have doubtless lost thousands of subscribers in consequence. Pre texts to which no individual in his private capacity would have stooped have been relied on to justify the stoppage of our paper within reach of their subscribers and rightful owners, and their retention in the Post-Office till their value was destroyed Postmasters have been schooled by rival journals-several them living on their self proclaimed ability to serve as an auti dote to THE TRIBUNE-as to their political duty to promote a our expense the dissemination of gazettes of adverse politics. We shall outlive this warfare, but we do not affect indifference to it. In the open field of discussion, we fear nothing; but in the ten of thousands of rural neighborhoods where the Postmaster car induce many of his quiet neighbors to take the journal he recommends, we have already lost some patrons, and expect to los more as our subscriptions for this year expire. We appeal therefore, to the hearty, faithful, fearless advocates of Free Labor and Free Soil throughout the land to take care that the official warfare on our circulation be not prosecuted without counteraction. We employ no traveling agents, for we will no consent to have the public barassed with the solicitations of strangers in our behalf. We strike the name of each subscriber to our Weekly or Semi-Weekly from our books so soon as his term has expired, for we will not haunt our patrons with dunfor errears which they may say they never intended to incur for papers which perhaps they never read; we rely for the renewal of our club subscriptions solely on the volunteered effort of those who, liking our paper, believe its influence salutary and worthy to be extended; and thus far our reliance has been jus-

tified, as we trust it may continue to be.

THE TRIBUNE is printed on a large imperial sheet, 325 be
44 inches, folded in quarto form, and mailed to subscribers at

the following TERMS:

MERICAN WATCHES—To the TRADE.—

A MERICAN WATCHES—To the TRADE.—

A These Watches are made by the aid of new and original machinery and tools expressly designed to secure with a low price a fine, substantial and covered time-keeper. The movements are new, simple and beautiful in plan and construction remarkably eavy of repart, and have been pronounced by the ablestchronomoter and watch makers to be faultiess in principles and quality, and by all whe have used them to be reliable in performance. Each one is engayed "Appleton, Tracy & Co. Waltham, Mass.," and is accompanied by a certificate of genulheens and perpetual warranty over our written signature. We ask no man to buy these Watches merely because they are of American manufacture. We ask only that this fact shall not be permitted to exclude them from consideration. We claim that Watches equal in quality and merit cannot be obtained so cheap in Europe; and we ask our countryment to give these a trial under our warranty.

Orders or inquiries may be addressed to us directly, or to any of the onder mentioned firms, who are agents for the sale of our goods in New York, viz:

Messar, COOFER & FELLOWS, No. 11 Maiden-lane, Messar, PLATT & BROTHER, No. 20 Maiden-lane, Messar, PLATT & BROTHER, No. 20 Maiden-lane, And Messar, Robbins & APPLETON, TRAOT & Co., Successors to the Boston Watch Company.
